

# Air Scrubber - Plus UV-C Light

**WMAS550**

# Appearance with Different View

Front Side

Air inlet with filter cover protection, smart lock design for convenient filter replacement operation.

Top Back Side

Top control panel design, and back feet design for lay down stock or working

Stackable Side

Stackable design to save space.

# Major Component

Convenient to operate air purify

1

2  
Comfortable and Convenient  
design for portable moving

2

3  
Protect filter during not using,  
enlarge filter working life

3

4  
Strong air flow blowing clean air  
far and cycle room air fast

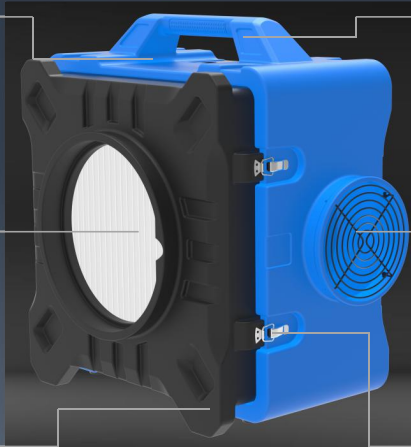

4

5  
Convenient to wrap 10 ft  
portable cable.

5

6  
Easy lock to open the cover to  
change filter.

6

4

# Key Feature

Built-in **UV-C light**

Multiple ducting for air intake and exhaust

0.3 Microns HEPA Filter

Variable Speed control

Filter change light indicator

Stackable, lightweight, for easy transportation

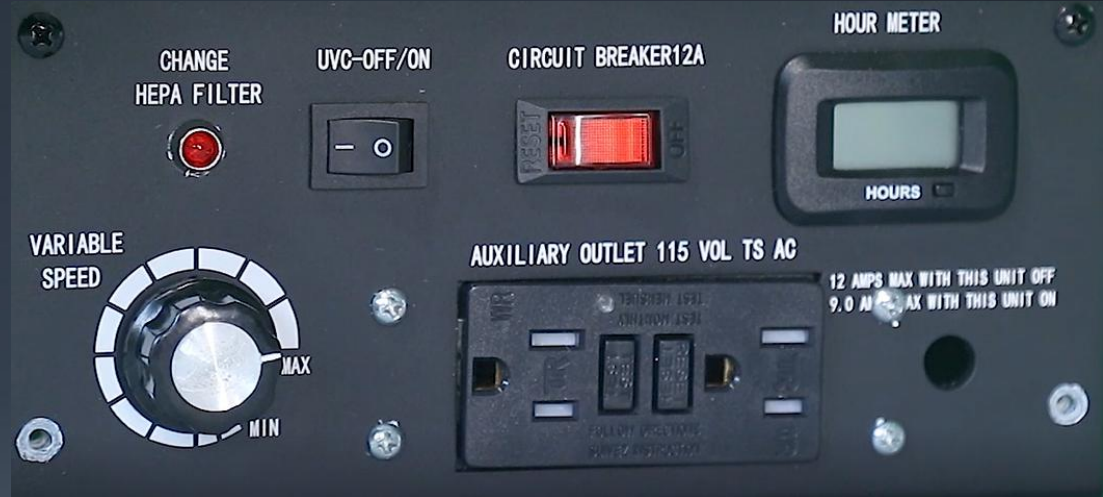

# Improvent Details

4 in-1 True HEPA Filter  
& UV-C Light Air Scrubber

It features a highly effective 3 Stage Filtration System, Pre Filter, HEPA/Activated Carbon Filter.

A UV-C light technology that works with filters

Control Panel

Variable Speed control knob

Hour Meter

Change HEPA Filter warning light

### Key Features of New Design:

- Commercial Hepa Air Scrubber
- Advanced UV-C Light Technology
- Higher Purify Performance
- Machine for air cleaning in restoration applications
- Commercial Grade Air Purifiers
- 3 Stage Filtration System, Pre Filter, HEPA, Activated Carbon Filter.

### Designed with you in mind:

- Switch for regulating air flow, simple to use
- Two sockets for daisy chair, auxiliary outlet
- Sturdy Hasp Ensures Stability, carry handle easily move room to room
- It is bigger air intake than any competitor's units, Airflow up to **550** CFM
- Hour Meter, User to time the running time of the device
